# HOSPITAL BONDS FAIL, HYNES HOLDS

## ARBITERS OF LOCAL CAR WAGE SCALE SELECTED

George Kaufman, John Drum and Paul Sinshelmer Chosen to Settle S. F.-O. T. Dispute

DECISION WILL BIND BOTH SIDES ONE YEAR

Schedule Accepted Will Be Used as Basis by State Railroad Board in Fixing Rates

George C. Kaufman, civil service commissioner and advisor to Mayor John L. Davis; John S. Drum, president of the Savings Union Bank and Trust Company of San Francisco, and Paul A. Sinshelmer, assistant to the president of the Union Trust Company of San Francisco, were today agreed upon as members of the board of arbitration which will decide the pending wage differences between the carmen's union, Division 192, and the San Francisco-Oakland Terminal Railroad. The agreement of arbitration, pledging the two parties to abide by the decision of the board, was signed this morning by L. F. Laytham, L. H. Lebowitz, H. Mohr and J. W. R. H. Land, representing the carmen, and Vice-President W. R. Alberger and Secretary F. W. Frost of the transportation company.

The increased wage schedules submitted for arbitration by the union are the same as those transmitted to the company on June 8 as follows:

(A) For traction division motormen and conductors and Key division brakemen: For first six months of service, 40c an hour; for second six months of service, 41c an hour; for third year of service, 43c an hour; for third year and thereafter, 45c an hour.

(B) For Key Division motormen and conductors: For first six months of service, 50c an hour; for second six months, 51c an hour; for second year, 53c an hour; for third year and thereafter, 55c an hour.

The present schedule of wages for Class A is 30c an hour for the first year and an increase of one cent an hour for each year of service up to a maximum of 40 cents.

**DECISION OF BOARD BINDING FOR ONE YEAR**

Class B employees are receiving 38c an hour for the first year, 40c for the second year and 42c for the third year. According to the company, all the men in this class are now receiving the maximum wage.

At a meeting of the union on August 5 the original requests were modified and the following schedules submitted as a compromise and without reference to arbitration: Class A at the rate of 35c to 41c an hour; Class B at the rate of 45c to 51c an hour. This compromise offer is now withdrawn, however, and the original schedules of June 6 submitted for arbitration.

**KAUFMAN CHOSEN BY CARMEN'S UNION**

Any increase of wages which the board may determine upon shall relate back to and cover the period from June 17, 1917, provided that the back pay for the period between June 17 and the date when the new schedules become effective shall be held in abeyance pending the decision of the State Railroad Commission on the application for increased fares.

As to the selection of the arbitrators, the agreement states that Kaufman was nominated by the union and Drum by the company, while Sinshelmer was selected by the union and the company to act as chairman.

The nomination of Kaufman, forecasted on Thursday by THE TRIBUNE as probable, was a surprise in some quarters, as it was believed that he would not be acceptable to the carmen because of his possible attitude toward labor. It is generally understood from friends of Kaufman that he was at one time connected with the Guggenheim mining interests in Mexico, and it was a question as to what his relations toward union labor had been.

When asked this morning whether or not the carmen's union had investigated Kaufman's labor record, Secretary L. F. Laytham said:

"We generally do make such investigations before taking a step of this kind. The union is entirely satisfied with the qualifications of Kaufman as a member of the board."

In becoming one of the arbitrators Kaufman possibly conceives himself one step nearer the realization of a desire expressed some time ago that he might become receiver for the traction company. Necessity for a receivership existed only in the imagination of certain members of the municipal administration and it was in this circle of strange hopes that the Kaufman hope was voiced.

## Navy Finds Mare Island Explosion Was Due to Plot

WASHINGTON, Aug. 25.—"Some person or persons unknown" were responsible for the fatal explosion at the Mare Island navy yard July 9—a "deliberate act"—the Navy Department announced today.

Report on the explosion absolved all navy yard employees, but it was stated clearly that the explosion was not an accident. No clue to the method employed by the men responsible had been found.

"Every effort," the report said, "is being made to apprehend the guilty parties and to definitely ascertain the exact manner in which this destructive explosion was accomplished. For obvious reason the detail of procedure can not be made public."

The official report submitted to Secretary Daniels by navy officers denied in substance the charges made by C. Robert Thompson that the investigation was not prompt and thorough.

## Commission Will Prevent Ship Strikes

WASHINGTON, Aug. 25.—The first peace treaty between organized labor and the United States government was signed today.

It provided for a commission of three to adjust wages, hours and conditions of labor in all private shipbuilding plants in the country.

President Wilson has named W. Everett Macy as the representative of the public on the board. The men to be named by the government are shipboard and President Gompers of the American Federation of Labor have not yet been announced.

Macy is a New York capitalist, director of several banks and treasurer of the National Child Labor Commission.

The plan to settle shipyard troubles is the forerunner of a scheme to prevent strikes in munition and war supplies plants now being arranged between government officials and labor leaders.

The originator of both plans is Louis D. Wehle of Louisville, Ky. The signers to it were: F. D. Roosevelt, assistant secretary of the navy; Admiral W. L. Capps, general manager of the Emergency Fleet Corporation; Samuel Gompers and international officers of the various trades engaged in shipbuilding.

Under the agreement the wages and working conditions in effect on July 15 will continue wherever labor troubles are threatened in shipyards. Then the board of three adjusters steps in to consider demands for higher wages or better working conditions. The labor leaders agreed not to call out their men pending efforts of the board to settle the dispute.

The board's decision shall be final and binding on all parties, but either side to the dispute may reopen the question six months later if it desires.

**COMPERS TO NAME TWO TO CONFERENCE**

Gompers will actually appoint two members to the board—one from the metal trades and one from among wooden ship carpenters. But only one will sit on the board on any question in dispute.

The agreement also provides for two as the members of the board with voting powers to sit in when disputes concerning private plants are being adjusted—one as the owner and one as the employee. Similar provision for representation on the board is made in case of a dispute in private yards doing work for the navy department.

Under the plan the country is divided into districts, each with an examiner for the shipyard owners and one for labor organizations. The examiners conduct the preliminary negotiations toward settlement of disputes.

The board's decisions may be retroactive and it may take into consideration increased living costs in deciding wage demands.

Settlement of shipbuilding strikes at Wilmington, Del., and Portland, Ore., was announced today by the department of labor. The men at Portland agreed to take their grievances into conference and threaten them out. These two strikes had threatened the big government shipbuilding program.

**CONFERENCE PLAN MEETS OPPOSITION**

MOSCOW, Aug. 25.—Labor unions are opposing the Moscow conference and have announced a one-day strike in protest. The leaders of the unions declared the conference to be "counter-revolutionary" and that it was not possible for democratic organizations to participate. They regard the conference as an effort to deceive the masses.

Protest meetings in various factories and works were called for today.

Minimalists and social revolutionists likewise are voicing opposition and held a meeting at which it was resolved that the conference was unrepresentative of the people and announcing in advance that they would not abide by any decision taken.

View of the widespread opposition the big opera-house, where the conference will sit, will be surrounded by troops throughout the sessions.

## DAVID DEAF TO WORD OF OWN ENVOY

Refuses to Hear What Consulting Engineer Has to Say About Western Waterfront

Executive Rejects the Advice Brought Him From East; Civic Bodies to Get Report

"It would be impossible for me to concede that the city of Oakland would consider the location of shipbuilding plant on the western waterfront."

This is the opinion of no less an authority than E. P. Goodrich, consulting engineer of the city of New York and designer of the famous Bush terminal at that port, according to Fred E. Reed, a local realty man, who has just returned from the East, where he interviewed authorities on the subject of the proposed harbor survey.

Although Reed carried with him letters of introduction from Mayor Davis and the informal endorsement of his plan to obtain expert opinion in the matter of the waterfront question, he returned to find that the mayor turned a deaf ear to his offers to submit his report. It was stated today.

Reed, believing that the mayor was sincere in his attitude, called upon him several times this week to make his report. He finally obtained an audience last night, to be curtly told by the chief executive that he "didn't want to hear it." Further, it is said, the mayor intimated that he does not need any advice in the matter such as was suggested, voicing his opinion that "this is the finest thing that has ever happened."

As the result of the mayor's attitude Reed will render his report to the Civic Association and other organizations next Friday night.

I have taken the matter up with Commissioners Morse and Soderberg," said Reed. "Commissioner Morse desires the survey, but Commissioner Soderberg stated that he feels the survey is not necessary at this time and that he is ready to vote on the proposed lease to the Union Construction Company."

It is probable that the lease matter will come before the City Council Monday to be voted upon.

## Chief Chosen For County Sanitarium

Dr. R. J. Cary, superintendent of the Mountain View sanitarium at Lake View, Wash., has been selected by the County Institutions Commission as superintendent of the new Livermore tuberculosis sanitarium, and S. H. Thompson has been chosen executive secretary of the commission.

Installation of the new executives will be made as soon as the formal transfer of affairs can be made. Dr. Cary, incumbent superintendent of the county institution, has been accepted by the medical corps of the United States army, as was announced in THE TRIBUNE on Wednesday, and is expecting his commission as a captain at any moment.

Dr. Cary will receive a salary of \$2400 a year and maintenance, as provided in the budget of the supervisors. He is a graduate of Johns Hopkins medical school and has had general hospital experience as interne and resident physician at the St. Francis hospital in Pittsburgh, Pa., and as resident physician in the Tuberculosis League Hospital of Pittsburgh. Since September, 1915, he has been superintendent of the tuberculosis sanitarium in Washington. He has also been instructor in medicine in the University of Pittsburgh.

**THOMPSON WILL BE PAID \$2000 YEAR**

As executive secretary of the commission, Thompson will receive a salary of \$2000 a year without maintenance. He has had experience in business and was for a time deputy probation officer of Alameda county. He is well trained in social service work, his last employment being under the State Board of Charities and Corrections. He was loaned to Alameda county by the state board and has been rendering highly satisfactory service as assistant to the commission in the survey of conditions.

It is the intention of the commission to maintain supervision over the activities of the county institutions for some time to come and to keep in close touch with the administrators, and it will be the duty of the executive secretary to carry out instructions in detail and make reports of accomplishments.

**IMPROVEMENTS ORDERED FOR INFIRMARY**

The buildings and grounds committee, headed by Frank A. Leach, was instructed to make tests of the quantity and quality of the water supply at Livermore sanitarium. It is probable that excavation will be made in the arroyo lying across the road from the new sanitarium and a pump installed to draw water from the underground reservoir there existing.

At the county infirmary several small improvements were ordered

## S. F. STRIKE IS CRIPPLING CAR SERVICE

United Railroads Declares It Could Operate 700 Cars if City Accorded Protection

Law and Order League and Mayor Exchange Hot Letters; Car Runs Away Five Blocks

SAN FRANCISCO, Aug. 25.—Announcements by the United Railroads that it was prepared to run its normal street car service on every line and in fact could maintain increased schedules if necessary with the men already in its employ, was made by Superintendent H. T. Jones this morning. That the lack of police protection is alone responsible for the impaired schedules and the abolishment of night service and that as soon as the company was sure its property would not be destroyed and its men injured it would be ready to restore former traction conditions was the additional information given publicly.

Denial was made that there are large defections from the ranks of the strikebreakers and the company asserts that it has enough men, if necessary, to operate 700 cars, which is 200 in excess of the usual number on the streets.

**LABOR OF STATE IS ASKED TO AID**

California State Federation of Labor today sent a communication to every trades union in the State asking aid for the striking carmen. The letter requests either donations to the cause or assessments to be regularly levied for the support of the strikers and the union.

From the Labor Temple today comes the word that forty-two of the old guard U. R. R. platform men deserted the service of the company and were sworn in to membership in the union.

Armored cars for use in the Mission district were most of the rock throwing has been going on, were sent out on the lines for the first time today. One of them came to grief on Folsom street near Main. Motorman Irwin Christensen thought that he could brush aside a boulder on the track by turning on full speed. The car jumped the track and crashed into a telephone pole. No one was hurt.

R. H. Winbury of 1039 Haight street left the Oak and Broderick streets car barn long enough to get a drink this morning. On entering the saloon at 400 Devisadero street he claims to have been set upon by five strikers. At the Park Emergency Hospital three ugly scalp wounds were dressed.

**SERVICE SUSPENDED DURING NIGHT**

The absence of service during the night brought about a cessation of the nighting and violence which has characterized the action of mobs under cover of darkness.

A serious accident in the Mission district this morning was prevented only by good fortune and the absence of travel. The tracks on Guerrero street from Twentieth to Eleventh were greased, and the first car coming over the hill at 5 o'clock sped for a distance of four blocks completely out of the control of the motorman. There was a panic and the crew had difficulty in restraining the passengers, but none jumped and there were no vehicles in the way no damage was done. The line, however, was tied up for two hours until a sand car could run over the rails.

**POLICE ARE BLAMED FOR CONDITIONS**

Blame for the present condition is laid upon the shoulders of the police by Superintendent Winbury. "If the officers on duty would be as careful to arrest rioters as they are to search our men we would get along much better," he declared. "Every time there is shooting or stoning the police instead of searching the rioters go through our men to see if they are armed while the culprits make good their escape un molested."

William Reilly, strikebreaker, was captured by a German Harrier, was kept this morning and charged with giving away beer to four soldiers. Reilly is a guard and had in his possession a United Railroad identification badge and a private detective's shield. He was booked at the city prison.

Chief of Police D. A. White this morning sent a letter to President Jesse W. Lienthal in the course of which he stated that the police had been instructed to be impartial. He enclosed his order to company commanders setting forth just what patrolmen were expected to do.

**STRIKE IS REVIVING AN OLD FEUD**

With the announcement by President Jesse W. Lienthal that night service of street cars will be discontinued and the endorsement last night by the San Francisco Labor Council of the action of its executive committee in levying an assessment of 25 per cent of the weekly wage upon all members of the union affiliated with the council, the strike of platform men of the United Railroads has reached a further stage of determined hostility. On the political side, the situation has developed into a revival of the old feud between Mayor James Rolph and the Chamber of Commerce.

After addressing an open letter to the mayor yesterday, Frederick J. Koster, president of the Chamber of Commerce, called a meeting of the

## MONTE SANTO, LONG HELD BY AUSTRIANS, WON BY ASSAULT

French Score New Victory North of Hill No. 304; Three Fortified Works Gained in Attack; 8101 Prisoners Captured

GERMANS 23 MILES FROM RIGA

ROME, Aug. 25.—The tri-color of Italy has been flying since yesterday on the summit of Monte Santo, which was an Austrian stronghold on the Isonzo front, according to the official statement issued today.

The Italian second army, General Cadorna reports, has broken through the Austro-Hungarian line of defense at several points and is closely pursuing the Austro-Hungarians who are retiring and defending the difficult ground yard by yard.

## Peace Views Of Michaelis Are Mystery

By Associated Press.

COPENHAGEN, Aug. 25.—Yesterday's sitting of the main committee of the Reichstag was productive of further declarations and discussions regarding Chancellor Michaelis' attitude on peace, which the latest German papers construe variously. A careful perusal of the mass of reports and comments on the committee meetings yesterday and Wednesday show that Dr. Michaelis' thorough conferences with party leaders did not change his attitude regarding the wording of his ambiguous speech of July 19, and the situation as far as pinning him down to any definite peace program, remains exactly where it was when he assumed office.

It was brought out in the report of yesterday's proceedings that the majority party representatives endeavored before the Reichstag meeting July 19 to secure from him definite assurances, but failed.

Herr Erzberger, the Centrist leader, alone declared yesterday that the committee sitting that doubt as to the chancellor's acceptance of the principle of peace without annexations and indemnities now had been eliminated for good. All other views of the Conservatives and other groups were flat denial. Vorwaerts, the Socialist organ, is inclined to give the chancellor the benefit of the doubt, but demands that he defend his political program and good faith by a plain and unequivocal statement that he does not hold ideas of annexation and conquest which these elements attributed to him.

**CRISIS PUT OFF ONLY, IS HELD**

The Berlin Tageblatt says the crisis is only adjourned. Herr Hausmann, Radical member of the Reichstag, declared in a speech in the committee yesterday that the chancellor had introduced elements of doubt and uncertainty into the interpretation of the Reichstag resolution. He claimed his own man without a word of protest, and that he had done nothing to shake off the assertion of the Pan-Germans that he is playing a false game in politics. He closed on Wednesday afternoon, when he was expected to make peace negotiations, but the majority leaders then, as now, declared expressly that there could be no question of such a thing as the coalition being made on the basis specified in the resolution. Dr. Michaelis was warned of the danger of departing therefrom.

What the Conservatives and the Pan-Germans think of the present situation is revealed plainly in the Berlin Tageszeitung. The anger of the majority parties against the chancellor is unjustified in the opinion of the writer.

**ROW OVER MOVE PARTLY SUBSIDED**

The miniature parliamentary tempest which set in Wednesday was abated, its sequel may be found in the customary interchange of editorial reproofs in the last twenty-four hours.

Newspapers representing the majority party accuse the party leader, Michaelis, of attempting to use the coalition policy for success for their tactics upon the difficulty of the chancellor's position and the fact that he is a newcomer in the arena of practical politics.

The Conservative organs make counter-charges, that the majority parties are endeavoring to force the chancellor into slavish submission to their peace program and generally are seeking to run the government. That is about the gist of the press warfare which has followed Wednesday's flurry.

This new committee will consist of two Social Democrats, two Conservatives, one National Liberal, one Conservative, one Progressive, People's party deputy. It has not yet been suggested to make this smaller unit a permanent auxiliary to the main committee or to bestow upon it functions greater than those of the main body.

BERLIN, Aug. 25.—The German line on the northern fringe of Herenthag Wood, in the region of the Tyres-Menin Road, has been pushed back somewhat by the British, the war office announces. The Germans are reported to have captured Gillemont Farm, south of Vendhuille.

**By Henry Wood.**

United Press Staff Correspondent.

WITH THE FRENCH ARMIES IN THE FIELD, Aug. 25.—France took 7600 prisoners, 201 German officers, in the Verdun drive. The Sixth German division of reserves, formerly ranked as one of the strongest enemy units, was literally wiped out. After the first French assaults the division was reduced to three remnants (approximately 7500 men) and of these the French took 2734 men and 40 officers prisoners. The remnants had been forced into the front trenches for fighting.

**GERMANS EXHORTED NOT TO SURRENDER**

Prisoners from this Sixth division declared today those of their unit not captured by the French had been killed.

The large number of officers captured by the French is striking proof of a decreasing German morale. In the French assault on Verdun December 15 only 208 officers were taken out of a total of 11,000 prisoners.

With a checking up today of prisoners and German casualties, it developed that of one German regiment the French captured 860 soldiers and twenty-eight officers. This was the 168th Infantry.

Prisoners declared today that while waiting for the French attack, German officers distributed to them copies of a letter purported to have been received from the Baltic seaport of a German soldier imprisoned at Verdun, December 15. It described alleged horrors of the French prison camps and exhorted the Germans not to surrender.

**ENEMY REPORTED ONLY 23 MILES FROM RIGA**

LONDON, Aug. 25.—The only news of the Riga front fighting reaching here today came from German sources. Petrograd was silent on Teutonic claims of the starting advance of the German seaport. These asserted Bavarian forces had reached the River Aa near the coast—less than twenty-three miles from Riga.

Canadian troops still advanced against Lens today. West and south of the coal city the fighting was one continuous battle of assaults by the Canadians and immediate counterattacks by the enemy. At several points the German counter-thrusts forced some slight recessions, but this was more than countered by a night victory west of the metropolis.

There Field Marshal Haig today reported a successful attack, with slight casualties to us, which "captured a short trench of local importance."

Germany's counter-attacks not only around Lens but northward in the Tyres-Menin sector show no sign of weakening. They were made in great concentration of men and of barrage fire. In the Lombardy neighborhood at night we captured an enemy post, taking a few prisoners and a machine gun," the statement continued. "Around Epehy there was considerable artillery early this morning."

**SHIP ROUTS DIVER**

PARIS, Thursday, Aug. 23.—A French steamer went to the assistance of the American steamship Campana which was torpedoed and sunk by a submarine on August 6. The French vessel was attacked by both torpedo and gun fire, but repelled energetically, and notwithstanding losses compelled the submarine to abandon the fight.

On the arrival at an American port of forty-six survivors of the tanker Campana it was reported that the submarine which sank the vessel and took prisoner her captain and five of the gun crew were destroyed on the same day by a French patrol cruiser.

**BOOST PAPER COST**

WASHINGTON, D. C., Aug. 25.—Charges of concerted action to raise book paper prices were made by the Federal Trade Commission today in formal complaints filed against twenty-three manufacturers and the head of their bureau of statistics.

## FINDS VOTE TOO SMALL ON COUNTY INSTITUTION

District Attorney Cites Decisions to Show Why Passage of the Hospital Bonds Failed

TWO-THIRDS MAJORITY NEEDED ON 'VOTES CAST'

Unless Another Election Is Held Only Method Left Is to Raise Money by Taxation

The failure of the hospital bonds legally to pass was announced this morning by District Attorney William H. L. Hynes, after a careful check of the figures furnished by the board of supervisors and a delving into section 4088 of the Political Code of the state.

The law, according to the construction of Hynes, calls for a two-thirds majority "of the votes cast at the election" rather than a two-thirds majority of the votes cast on the proposition. This applies to bonds only and under this ruling the proposition failed to pass.

A total of 26,513 votes were cast at the special election of August 14, and the bonds were sold for \$1,474,000. The law requires that the bonds be sold for \$1,474,000 and that the issue of the bonds be \$1,474,000.

**HYNES WOULD AVOID NEEDLESS EXPENSE**

Two cases were cited by Hynes this morning in which the same question was tested in the courts of the state and the fact established that bonds issued under identical circumstances would be invalid. The case of Law vs. San Francisco, which involved bonds to acquire Telegraph hill, was cited. In the election at which bonds were issued the same situation arose and when it came to trial the court ruled that the law plainly intended that "two-thirds of the votes cast at the election" would be required to make the bonds valid. As a matter of fact but 17,066 were actually cast for it and 8455 against it.

With the same result. "There can be no doubt in the matter," said Hynes. "The law is plain, and the people who would be asked to buy the bonds would be put down for the simple reason that the county could not be made to redeem them because they would be invalid."

"I cannot advise the supervisors otherwise than to turn the thing down, because they would be put to needless expense in having bonds printed and made ready for sale."

**DELAYS ACTION FOR AT LEAST YEAR**

The old California College site was purchased by the Board of Supervisors several months ago from the Berkeley Baptist Divinity school for \$35,000, and it was on this tract that the new hospital was to have been erected. Unless another bond election is held for the purpose of raising this money, now that the recent election failed, the only method by which the money can be raised is by taxation and this is not possible for at least another year. The budget for the coming year is already in the hands of the board of equalization at Sacramento, and no additions to it are possible because it calls for the limit of taxation allowed under the law.

The failure of the bonds to pass will be confirmed in the event of a court contest. District Attorney Hynes seemed to have no doubt, as ample precedent for it is available in the San Francisco and Santa Rosa cases.

In the Santa Rosa case the matter submitted to the voters called for a straight majority of the votes cast at the election. Of the total of 1474 votes cast, 1143 were on the matter in question and 611 of these were for it. It was declared passed, but the contest afterward established the fact that the law called for a majority of the 1474 instead of 1143, and the court held that it had been defeated.

The Board of Supervisors will be officially notified Monday of the failure of the bond proposition and told that the money cannot be raised by this method.

## TRAVEL BY AUTO

Get back to the good old coaching days when a journey was a pleasure and an adventure. Float over California's matchless boulevards on the air cushions of modern travel, get a breath of the pines and of the sea. You'll find the schedules of the auto stage lines, and the addresses of private car owners, in the "Auto Column" of THE TRIBUNE Want Ads.

# REICHSTAG TO ANSWER PEACE PLEA

BERLIN, Aug. 25.—Germany's answer to the Reichstag peace committee, representative of all political parties, will be presented in accordance with their strength.

The committee would include two Socialists, two members of the Centrist party and one delegate each from the Conservative, National, Liberal and Progressive parties.

SOFIA, Thursday, Aug. 23. (via Berlin and London, Aug. 25).—"We want peace and desire to end this terrible bloodshed," said Premier Radostoff in an interview on the peace note. "We have emphasized this attitude for more than a year. Last December we offered peace to the Entente but it preferred to seek its fortune in a continuance of the war. In the nine months intervening our military situation has become nine times more favorable and every day proves it is becoming still stronger."

WASHINGTON, Aug. 25.—Talk in Congress that President Wilson might possibly address the national body on the subject of peace when he makes reply to Pope Benedict's proposal was denied today when the White House let it be known that the President has no such intention.

LONDON, Aug. 25.—Although the amplification of the Pope's peace appeal, published through the United Press, was received with undisguised interest here, no official comment was forthcoming today.

When the Pope's original appeal was received here the official and public attitude was one of displeasure at the reference to Belgium. The forecast that it would be politely turned down by the allies was freely made.

Now that the Vatican has made a "special exception" of Belgium the result is official silence. The new Vatican statement was published here when it is believed the answer to the Pope is being formulated by the government. It is known that amplification and explanation, forwarded through the United Press is being most carefully scrutinized by the foreign office.

PRIDE BLOCKS PEACE.  
KANSAS CITY, Aug. 25.—Alsace-Lorraine, Trieste and Trent—the two stumbling blocks in the path of peace—could be easily and satisfactorily disposed of if the third and greatest obstacle to a just peace—pride—could be eliminated.

This is the opinion of Archbishop Bonzano, apostolic delegate and the Pope's special representative in America, given the United Press today.

"We are committed to the warring nations to lay down their arms and cease their fratricidal slaughter—that the holy father seeks," Bonzano said. "Once they have laid aside the sword to secure peace through justice and persuasion they will never take it up again."

The amplification of the Pope's first message, given to the public through the United Press yesterday, is the holy father's answer to those who sought to misinterpret and misconstrue his first message, was also an answer to the charge that the proposals were inspired by the will of the belligerent powers, Archbishop Bonzano believes.

THE HAGUE, Aug. 25.—An important conference on political matters was held at German great headquarters on Friday night, according to advices received here today from a German source. The Kaiser presided over the council, which was attended by Dr. George Michaelis, the imperial chancellor.

AMSTERDAM, Aug. 25.—A Berlin despatch received here says Chancellor Michaelis visited headquarters and presented Emperor William with a report. Some Berlin newspapers say the visit is connected with Alsace-Lorraine.

## "Dollar a Year" Assistants Many for War's Sake

WASHINGTON, Aug. 25.—The "dollar a year" colony in Washington is growing. It is made up of business men, lawyers and experts in many lines who, enjoying independent incomes, want to "sit in" on the war game and pay for their own chips. Their assistance is appreciated, as the money available for salaries in the department would not make it possible for the heads to hire men of this caliber.

The latest addition got on the job today. He is Arthur W. Fairchild, head of the Wisconsin Insurance Co. and a member of the firm of Miller, Mack & Fairchild. He was commissioned to act as confidential advisor of Commissioner Joseph L. Davies of the federal trade commission and chief assistant to Francis J. Heney of San Francisco, general counsel for the commission, in its probe of food costs and distribution prices.

## TELLS OF RUSSIAN REVOLT HENDERSON SENDS ARTICLE

Arthur Henderson, Member of Parliament and former member of Great Britain's War Council, the man who figured in a recent verbal duel with Lloyd George, has written of "The Russian Revolution and Democracy" for Sunday's TRIBUNE. He contends that the interference of the workmen's councils with military affairs has been disastrous and holds that the people of the "Great White Land" have much to learn. It is a timely war article by a man in a position to write with authority.

"Sending Things to Sammy," by Rene Bache, is a full page of information much sought by those with relatives and friends at the front. There will be few who will not need this information when the boys in the present call have crossed the seas. Get tomorrow's TRIBUNE, cut out this page, and keep it for reference. It tells how to send letters and articles and how to prepare comfort bags for safe shipment.

The Sunday TRIBUNE will have other war articles from expert pens, it will have a full page feature on what the struggle is doing to the stage, it will have letters from the front, music criticisms, book reviews, garden news, etc., etc., etc.

## Two Americans Die Like Heroes Ambulances Destroyed by Shells

PARIS, Aug. 25.—(Special to New York)—The battle of Craonne has claimed two American victims belonging to the American field ambulance service—Raymond Perley Hamilton of Clinton, Mass., and James Wilson Galley of Newpark, Pa. Both had been less than a month's service.

It was in the heat of battle, when the Crown Prince's troops were launching desperate counterattacks, that the two Americans lost their lives.

Galley, only 21 years old, and a senior of Princeton University, died of a shell wound in the head.

Hamilton was killed in the same neighborhood. He was taken up wounded shortly after dawn at a first aid station right behind the trenches when a German shell fell in the midst of the group of sufferers and relief workers.

By J. W. Pegler,  
United Press Staff Correspondent.  
AMERICAN FIELD HEADQUARTERS IN FRANCE, Aug. 25.—In the ordinary course of events, if things yesterday had not

been just "make believe," American troops today would be "re-organizing positions" and "consolidating positions."

In yesterday's sham battle, they did terrific execution against a theoretical enemy, going through their battle paces with a vim and dash that aroused enthusiasm of the officers. First of all, a dial-colored wave of riflemen swung "over the top" and dropped into a system of trenches held by German in construction. They swatted things with their bayonets and scolded an "Ansoning wave" of "suppers" dropped in the same trench did more bayonet execution and worked up the zig-zag communication trenches. Then came the bombers, hurried up to assault a traverse behind which the enemy was theoretically making a "push."

The whole was a complete, painstaking reproduction of a real assault. Congressman Medill McCormick, who "went over" with the troops, had an exciting time of it. He narrowly escaped injury by not sitting far enough away from an exploding grenade. After it was all over McCormick distributed 30,000 packages of gum to the fighters.

Increase of all American companies to a fighting strength of 250 men, and of regiments to 1000, in accordance with the French army system, will necessitate great changes of organization, it was said today. The change is in progress now.

## Father Refuses Aid to Child, as in Contract

Beliefs of young womanhood that parental responsibilities accumulated by the mother might establish the feminine position as one far elevated from dependency upon the husband failed to maintain under the stress of experience in the case of Mrs. Ruth Taylor. Before her marriage to Lawrence Taylor she voiced the conviction that the first born should be solely the mother's charge, and to convince her husband-to-be of her sincerity she signed an agreement that for the first eighteen months of the life of their first child she would be its sole support.

Mrs. Taylor found her self-imposed task too great, and she asked her husband to cancel the contract, but he refused and she took the subject into court, seeking before Judge Koford to have her husband made to contribute to the child's support. Taylor's attorney, Clarence Ogden, presented the contract, which does not become void until January. Judge Koford has the subject under consideration for a few days.

## NEW CHIEF NAMED FOR SANITARIUM

(Continued From Page 1)

which will protect the water supply from contamination at a slight cost to the county. The completion of repairs to the kitchen and dining room, resulting in improved sanitation and better accommodations, were reported. The purchase was ordered of two gas incinerators, one motor vegetable chopper, one dish-washing machine and one 100-gallon steam jacket kettle.

A dental chair and appliances have been installed in the county infirmary and the aged inmates have been receiving dental attention, from lack of which they have long been suffering.

To the social welfare committee, headed by Dr. Aurelia Reinhardt, president of Mills College, were referred the problem of admissions to the infirmary, the system of investigation of existing cases, the policy of accepting patients and the establishment of a library and social center.

To the buildings and grounds committee was referred the problem of endeavoring to apply to the improvements the allowance made by the Board of Supervisors in the current budget for temporary improvements. The commission believes that money spent on temporary improvements is ultimately wasted and an effort will be made to avoid such waste wherever possible.

The commission announces that the most immediate and pressing problem before it is a continuation of the reorganization of the employment system. Detailed plans are under way looking to betterment of the service and economy.

## PRAISES TROOPS

PARIS, Aug. 25.—The military critic of the Paris daily L'Intransigeant gives an enthusiastic account of the American troops now training near the front. After paying an admiring tribute to "Sammy's" physical attractions, he cites a French captain, who is instructor in the American camp, as proof that "Sammy" is as good as he looks when it comes to work.

"These American boys are surprising us the way they are doing on the line. I feel at once that they are in earnest to learn all we can teach them about methods of fighting. Every new device has an absorbing interest for them. We have only to give them a demonstration. They catch right away with hardly a mistake."

## MAY HALT SUIT

FAIRFIELD, Aug. 25.—The Southern Pacific Company has filed a motion to dismiss the action of Lewohl against the company on the ground that the plaintiff is an alien enemy, being a subject of Germany.

Lewohl filed suit against the Southern Pacific Company for the sum of \$25,000, alleging defamation of character and being deprived of liberty. In his complaint Lewohl alleges that John Stratheke then in the employ of the company, had him arrested on the charge of obtaining money under false pretenses, the arrest being made by Stratheke at the instance of the Southern Pacific Company. The motion has been set for hearing on next Monday.

## BANISH CARDINAL

LISBON, Aug. 25.—Cardinal Anthony Mendes Bello, the patriarch of Lisbon, has been given five days by the Portuguese government to leave the capital. A decree issued today forbids the Cardinal to reside in Lisbon or the suburbs for one year.

# SPRING DRIVE PREPARED BY U.S., ALLIES

BY UNITED PRESS  
LEASED WIRE TO TRIBUNE.

WASHINGTON, Aug. 25.—America and her allies are preparing for another winter campaign and a great spring offensive to turn the scale. The forthcoming reply to the Pope's peace proposal, extension of aid to Russia and the outcome of the Moscow conference now in session will show this, officials and diplomats said today.

Between now and late winter the allies expect to "get Russia on her feet," that she may play her part in the giant nippers to be closed about the Teuton powers next spring.

In wake of the Pope's proffer and detailed explanation tendered by the Vatican through the United Press, it was re-emphasized today that all powers will reject peace now. President Wilson will offer a declaration of principles rather than an outline of peace demands. Each country is expected to reply individually to the Pope.

The Kerensky government will be given a vote of confidence by the Moscow conference and orders to continue the war with its present policy, the Russian embassy declares. This session, representing all elements of Russia, opens today and will adjourn Monday. Within that period will come probably some attempt to shift the form of government to one less radical, but embassy authorities say that elements seeking this are too small to succeed.

Outside of embassy circles is the view that the conference will result in great strength for the new democracy or unbridled civil strife. However, America's new interest in the Slav situation, evidenced by a \$100,000,000 loan and a note of confidence, is expected to develop very strong backing for Kerensky's regime.

The conference plans to address an appeal to the nation for vigorous resistance to the enemy and united action on internal problems.

DELIGHTFULLY REFRESHING.

Morford's Acid Phosphate  
In hot weather a teaspoonful in a glass of water, sweetened to taste, is most refreshing.

**NO FOUR GRAPES GENERAL THANKED**  
SACRAMENTO, Aug. 25.—Houses in which, in previous years, have been skeptical of buying early grapes in the market for fear of getting sour fruit, can now avoid those fears in buying grapes hereafter, according to George P. Weldon, assistant state horticultural commissioner. Weldon says that the new fruit standardization law has practically eliminated sour grapes from the market as it provides that grapes must contain at least 17 percent of sugar before they can be shipped.

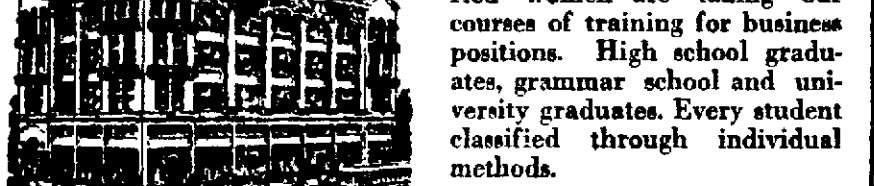

PARIS, Aug. 25.—Minister of War Poincaré has addressed a warm letter of thanks to General Petain, commander-in-chief of the French armies on the French front, congratulating him, his officers and their men on their recent triumph before Verdun. "You, who history recognizes as the glorious defender of Verdun," says the letter, "have now achieved your aim by definitely driving the enemy from the crown of heights from which he still threatened the inviolate city."

## Fathers and Mothers!

(Affiliated with The First National Bank of Oakland)

# FIRST DRAFT SPARES HEADS OF FAMILIES

WASHINGTON, Aug. 25.—President Wilson today declared that the first draft of 637,000 citizen soldiers should be made up of men who are not heads of families.

In a letter to Secretary of War Baker he said that the only exception to this rule should be in the case of a man whose family has no dependents, but who has sufficient income to supply the needs of those dependents.

The President's action is expected to result in a modification of the rules recently promulgated by Provost Marshal General Crowder on the subject.

In a letter to Senator Weeks the President pointed out that men with wives dependent on them, as well as men with wives and families, should be exempted from service. He was pointing out that the President should not constitute ground for exemption. Draft boards should rule on the fact of dependency.

## INFORMATION FROM FRONT TO BE PROMPT

PARIS, Aug. 25.—American families having members at the front with General Pershing will not be kept in suspense if any mishap befalls their loved ones. Arrangements have already been made for giving information as to the American killed, wounded or captured without any unnecessary delay, it was learned today.

A Red Cross bureau of information of casualties has been organized with W. R. Castle Jr., as director. The central office will be at Washington, where card cuttings of all American casualties will be kept. Representatives of the bureau will be stationed at all divisional headquarters at the front.

## Instructions For Mobilizing Issued

SACRAMENTO, Aug. 25.—Instructions for the mobilization of the first increment of the National Army were received today by Governor W. D. Stephens from Provost Marshal General Crowder. The orders will be carried out by Adjutant General J. J. Borree. One-fifth of the first 300 percent quota which is to be in camp by September 5, will be moved daily for a five-day period beginning September 1, according to instructions from the War Department. Local exemption boards are instructed to furnish tags for each man and for his baggage, designating his destination, his city, county and district number. These tags will be worn into camp and the various contingents will remain grouped until assigned to quarters.

Transportation blanks and meal exemption boards for their quotas and the routings will be made known to allow as much time as possible for the men to make their farewells and arrange personal affairs before entrainment.

Owing to the delicacy of the situation in handling negro and white troops at the same time, the War Department has asked that a spirit of forbearance be exercised by all concerned. Where a negro is second in command it is suggested that he take charge of negro soldiers and that they be entrained in separate coaches where possible.

Adjutant General Borree is authorized to employ such expert assistance as may be needed in carrying out the instructions.

## PROFESSOR WILL TEST DRAFT ACT

Filing a demurrer in the United States District Court to the grand jury indictment charging him with attempt to evade selective draft by refusing to take the physical examination, Fred B. Brughan, assistant professor of chemistry in the University of California, is preparing to make a legal test of the validity of the draft act. September 4 has been set by Federal Judge W. W. Morrow as the date for presentation of arguments provided that the defendants are not court-martialed as deserters before that time by the military authorities.

On behalf of the accused it will be argued that the draft act is unconstitutional in that it:

1. Authorizes the use of the militia for service over seas and upon foreign soil.

2. Fails to reserve to states the appointment of officers and the authority of training the militia.

3. Delegates the powers of Congress legislative and power to raise and support the army to the President.

4. Assumes to require involuntary service in army not as a punishment for crime.

5. Assumes to recognize and establish certain religious and discriminates in favor of adherents of such religions.

6. Violates the Fifth Amendment of the constitution in that it subjects citizens to the deprivation of life and liberty without due process of law and confers on the President discretionary and arbitrary power in selection of citizens for draft.

7. Provides for the drafting of citizens for the "period of emergency," which may be forever.

CAR STRIKES SOLDIER.

SAN FRANCISCO, Aug. 25.—Henry Chiconaut of the Tenth Company, Coast Artillery, stationed at Fort Scott, swung on a car at a Union street car this morning and was struck by another car going in the opposite direction. He suffered a possible fracture of the skull and went to the Adler sanatorium.

## Home News Appreciated

"Somewhere on the Atlantic" guarding supply ships or chasing U-boats, are our sailor boys.

News from home is very scarce and greatly appreciated.

If you know one of these lads, make him happy by sending him THE TRIBUNE. With its four leased wires furnishing ALL the news, he will be as well posted as the folks at home.

(Regular subscription rates, no extra charge)

# Five Hundred in the New Call Districts 1 and 2 Summoned

Five hundred more men have been called for examination by local draft boards in Districts 1 and 2, the first allotment having been found entirely inadequate to fill the required quota. District 1 has issued a supplementary list of 200 names, and District 2 has called for 300 additional men.

Examination days for the first district will be Thursday and Friday of next week, 100 men having been called for each day. The second district will conduct examinations next Thursday, Friday and Saturday.

Although these districts, which are the last two to get started, they have now caught up with—and even passed—most of the other local boards; due, in large measure, to the more efficient methods of handling the large number of forms and affidavits. Slightly less than 50 percent of the exemption claims were allowed in these districts, but it is not yet known how large a percentage of these will be appealed, as claimants are allowed ten days in which to file appeals.

This makes it apparent that hardly any of those who have filed claims for exemption will be included in the first group of men to report September 5, as it would be impossible for the district board to decide on the thousands of cases in the few days they have at their disposal.

That is, unless either one or two of the local boards will be

able to supply the 30 percent of the quota by September 5. Especially is this true of District 7, where only twenty men were obtained on the first call who passed the physical examination and did not complete their exemption claim. This group has not yet completed its examination of exemption claims, and has issued no second call yet. If a large number of those whose claims are denied file appeals, this district will only have its original quota, instead of seventy-two as required by law.

Considerable interest is being taken in the Fifth W. Johnson Jr. exemption claim by local boards. The debatable point is whether the boards must obey the rulings of Provost Marshal General Crowder or if they must draft Johnson, although he has a wife and two children; for both his father, United States Senator Johnson, or his wife's father, Philip E. Bowles, could and would support Mr. Johnson and the children if he went to war.

The ruling of Provost Marshal General Crowder is that marriage in itself did not constitute a valid claim for exemption. Only in such cases where the wife and children would become dependent on the State for support would marriage be a legitimate exemption claim, according to the provost marshal.

## BOARD NO. 1 ACTS

The following list of persons have been certified to the District Board from Local Board No. 1, as physically qualified for military service, their claims for exemption having been denied.

Jeremiah Moriarty Ray R. Wilson  
Thomas C. Probst Maurice D. Pacheco  
Charles D. Morando James J. Higgins  
Thomas J. Ferre David M. Schneider  
Edwin R. Carter William J. O'Brien

# CONDITIONS ALONG THE HIGHWAY

Road conditions throughout the State as received at the Touring Bureau of the California State Automobile Association, August 23, 1917.

**Coast Route South:** Leave Oakland via Highway to San Jose. Four miles south of San Jose detour for about seven miles on account of construction. Follow temporary signs, thence highway to Salinas and Chualar, dirt road to Camphor, thence highway, for 21 miles, thence dirt road to Elwood and highway to Santa Barbara. Santa Barbara to Ventura, highway. Five miles of dirt road out of Ventura thence paved to Los Angeles except good gravel road over Conejo grade.

**Valley Route South:** Leave via Foot-hill boulevard, turn left from Hayward to Dublin boulevard, thence pavement to Dublin. Dublin to Santa Rita, closed. Follow signs into Pleasanton and Livermore. Livermore to Walnut Creek, paved. Altamont Pass closed, but passable, thence highway to Tracy. Banta, one mile north of Banta good detour on account of bridge construction, thence to Modesto school. Take right-hand fork and continue on paved road to Modesto. Merced, Madera, Fresno. The City of Fresno has opened an excellent camp ground at Redding Park, just north of Fresno on State highway. Water, concrete benches, tables and stoves. Kingsburg and Goshen, fair dirt road to Tulare and Delano, or highway Goshen to Visalia, thence fair dirt road to Delano via Porterville, thence 20 miles longer. Highway from Delano to Bakersfield and south to Rose Station. Rose Station over Teton Pass to Lebec via a paved road in good condition, pavement to Bailey's. Bailey's to Saugus over ridge road, south (this rough stretch can be avoided by detouring at Bailey's to Elizabeth Lake thence over Bouquet Canyon to Saugus, good dirt road 20 miles longer). Paved road Saugus to Los Angeles via Palmdale and Lancaster.

**To Santa Cruz:** Get TRIBUNE Santa Cruz map. Blow your horn on the curves. Don't drive fast on the mountain grade. Law is being strictly enforced. Follow highway route to San Jose and Los Gatos Road. San Jose to Los Gatos, closed, thence Glenwood road to Los Gatos, good graded road mostly gravelled. Coast road via Halfmoon Bay, San Gregorio paved, getting badly cut up between Fairview Hill and San Gregorio, thence good dirt road to Santa Cruz. Chittenden

Pass, good. San Juan to Watsonville via Humboldt paved 5 miles, thence good dirt road. Big Basin road, fair from Sarnata to park. From park to Santa Cruz, fair. Santa Cruz to Watsonville fair dirt road. Watsonville to Castville, fair. Castville to Salinas, paved. Castville to Del Monte, paved.

**Coast Route North:** Sausalito Special Auto Route. Leave San Francisco at 6:30, 8:30, 10:00 a. m., 12:01, 2:00, 4:00, 6:00 p. m. Extra boats Sundays and holidays at 8:00 and 9:30 p. m. Leave Sausalito at 7:50, 9:20, 11:30 a. m., 1:30, 3:30, 5:30, 7:30 p. m. Extra boats Sundays and holidays at 8:00 and 9:30 p. m. Daily sailing service Sausalito to Tiburon connects with the 8:30 a. m. and 4:00 p. m. boats from San Francisco. From Tiburon to Sausalito 9:42 a. m. and 6:00 p. m. No automobiles will be handled on regular passenger boats during period that special boats are running.

**East Bay Motorists:** Take the Richmond-East Rafael Ferry. Leave Richmond daily except Sundays 7:30, 8:30, 11:30 a. m., 1:30, 3:30, 5:30 p. m. Sundays 7:30, 9:30, 10:30 a. m., 12 noon, 2:00, 3:30, 5:00, 5:30, 8:00 p. m. Leave San Quentin daily except Sundays 8:15, 10:15 a. m., 12:15, 2:15, 4:15, 6:15 p. m. Leave only at 8:45, 9:45, 11:15 a. m., 12:45, 2:45, 4:15, 5:45, 7:15, 8:45 p. m.

**Coast Route North:** Sausalito to San Rafael highway except through Larkspur and San Anselmo. Pt. San Quentin to San Rafael good dirt road. San Rafael to Sonoma county line fair dirt road. Highway to Petaluma and to two miles out of Petaluma, then poor dirt road to Cloverdale, paved to Healdsburg, good gravel road to Ukiah and Cloverdale. Cloverdale to Ukiah graded state highway with exception of four miles between Healdsburg and Ukiah. Ukiah to Willits, highway.

**Eureka Roads:** Good dirt road Cloverdale to Ft. Bragg via Yorkville, Bonville, Weeding and Comstock, or Ukiah to Ft. Bragg via Mendocino, thence good dirt road to Eureka with very heavy grades via Westport, Kenyon, Eureka and Cazadero. Eureka, thence eight miles good dirt road, thence highway to Rio Dell and good dirt road to Eureka.

**Eureka via Ukiah:** Eureka and Dyer, thence to Ukiah, fair narrow mountain road, Longvale to Laytonville, fair mountain road. Laytonville to Eureka rough and dangerous, very narrow poor mountain road with many sharp turns, not advisable. Road improves between Harris and Dyer, thence to Eureka, good.

**Red Bluff to Eureka:** Road open and in good condition. Black Point cut-off. Get TRIBUNE Black Point cut-off map. Take Black Point road quarter mile north of Novato, fair dirt road to new bridge, fair road to Napa county line, paved to Napa. Guerneville, Monte Rio and Cazadero. Santa Rosa to Fulton, highway. Fair dirt road to Guerneville, Guerneville and Dyer, narrow road, steep grades, Guerneville to Cazadero, Stewart's Point and Point Arena, fair. Get TRIBUNE map. Vallejo to Napa poor, five miles under construction. Napa to Calistoga good dirt road. Calistoga to San Geronimo, paved. Napa to Monticello, good except first five miles. Napa to Pope's valley, good; Napa to Sonoma State highway; Sonoma to Petaluma, fair dirt road.

**Lake County Roads:** Get TRIBUNE Lake County map. Calistoga to Middletown to Kelseyville, fair. Kelseyville to Red Bluff, new highway grade to Cottonwood, fair dirt road to Redding. Redding north, best road via Kennel, 12 miles via Buckeye fair dirt road, then 20 miles graded highway (South bound motorists take right-hand road and drive north 2.5 miles south of Delta R. station, then 3.5 further south turn left onto highway), thence 14.7 miles fair dirt road to Shasta Springs, turn left onto good road of graded highway, then 10 miles poor and rough road, then two miles good road into Dunsmuir. Dunsmuir to Shasta Springs, turn left onto highway onto good gravelled road to Yreka via Ashland. Thence highway to Horn Brook, Gashland, Medford and Central Point. Good dirt road and highway to Grants Pass and Wolf Creek. At Wolf Creek don't cross R. R., take right-hand road to Gashland. Gashland to Red Bluff, the Cow

## 'WE MUST WIN' SAYS EX-ENVOY

MINNEAPOLIS, Aug. 25.—"We must win this war, for if Germany wins she will be over here," declared James W. Gerard, former United States ambassador to Germany, addressing a mass-meeting here. "If we fail to defeat that blood-thirsty autocrat, life and honor are of no value."

The speaker denounced publications which are trying to stimulate a pro-German sentiment. "Imagine an American paper, published in Germany, printing attacks on the German government," he said. "The war will be out on the result—the bare wall and the firing squad."

"But there will be an awakening here after the first American blood has been spilled on the firing line. The victims will fear these pro-German publishers from their offices and demand that they pay the penalty."

"We are out to win and we will win, despite the traitorous bribetaking minority that would, by their poisonous propaganda, hamper progress of the majority."

Clarence Darrow, Chicago attorney, denounced the "fanned-mouthed traitors" who are scattering German propaganda, and pleaded for a united America in humanity's battle against Prussian militarism.

"No country," he said, "has even been so right as the United States is today. It is a war to preserve civilization, human liberty and democracy of the whole world, including Germany."

Unless peace comes with the unconditional surrender of the German military machine the greatest sacrifice ever made will be in vain, he said.

**IS HELD POISONER**  
PORTLAND, Ore., Aug. 25.—Edna Gregory of Pendleton, wife of Carl Gregory, a sheep company employee, was indicted by the federal grand jury on the charge of sending poison through the mails with intent to injure or kill the recipient. It is alleged that Mrs. Gregory mailed a box of poisoned candy to Mrs. May Clarke of Pendleton through motives of jealousy. Mrs. Gregory was arrested at Pendleton August 22 as a result, it is said, of a trap set by postal inspectors.

**SINKS AT WHARF**  
VANCOUVER, B. C., Aug. 25.—The steamer British Columbia, Captain Lewison, sank at the Hastings mill wharf with a full cargo of lumber and coal for Granby. She went down in less than ten minutes in full view of her captain and crew.

The British Columbia, it is said, showed a slight list, caused by her foremast ports being open, and when an effort was being made to right her again she sank rapidly. Salvage operations will begin immediately. It is not believed she is much damaged.

grades. Take either Auburn, Placerville or Calaveras Trees road to Meyers at south end of lake, thence to Woodford, continue north from Woodford to road crossing to Gardnerville or Minden, thence good dirt road to Coleville, Bridgeport and Mono Lake. From Mono Lake, fair dirt road with nine-mile climb to summit, thence down a steep about 10 miles to Lake (Not good for up climb), thence a fair dirt road through Tuolumne Meadows to Sequoia or Crocker's on Big Oak Flat road. At Crocker's turn east for Yosemite or continue south to Salida on State Highway or Stockton or Yosemite.

# Society News

September will dawn as the bride's own month. Mrs. Plaw, working alongside of Cupid, has played all sorts of pranks upon the men and maids of the nation, leaving no alternative for happiness save in the merry singing of wedding bells. One of the first of the notable marriages will be that ceremony at which Alfred Dixon Plaw will marry Miss Margaret Miller as his bride. Plaw was the hero of the campus during his student days in the University of California, even going East and abroad to win medals for his prowess on the athletic field. The old Plaw home was formerly in Fruitvale, where it was the center of a gay life. The family is numbered with the earlier pioneers. Among the daughters are Miss Eleanor Plaw, Miss Marie Plaw, and Miss Fanny Plaw. Joseph Plaw is another son. Miss Miller is the daughter of Mrs. James F. Trimble. She told of her betrothal but a few weeks ago, naming her wedding for Wednesday, September 5.

On the same day Miss Mayde Nickum will become the bride of Alfred Granstrom at a pretty ceremony, with the new home to be established in Berkeley.

Miss Frances Garrett is arranging a house ceremony for her marriage with Donald Pearson on Saturday, September 8. Miss Marion Bachman has varied the day by choosing Friday, September 14, for her wedding. The service at which she will become the bride of Horace Kenneth Winter will take place in St. Clement's chapel with a bevy of attendants.

Although the Yosemite Valley will stage the service at which Miss Alice Jorgensen will plight her troth to Ralph Herbert Anderson it is of more than ordinary interest to the smart set in the east shore cities, where the family home has been made for many years. Miss Jorgensen will celebrate her marriage on Tuesday, September 25. She has named no attendants.

Another September bride will be Miss Grace Fisher, whose wedding with James Tracey Williams will be an exceedingly simple event. The new home will be made in Santa Clara county. Her brother, Ralph Fisher, probably will be married next month, claiming as his wife Miss Margaret Merriam.

The wedding plans of Miss Helen Downey are still indefinite, although the early month will witness her wedding to Harry Sumner Houghton. Miss Sylvia Warner and Robert Brick are also planning a September wedding, the charming young girl going to Fort Leavenworth, where her fiancé is stationed, for the simple ceremony which holds so deep an interest.

This is the wedding day of Miss Jean Oliver and Lieutenant Edgar Alexander Freeman. The marriage follows just a week after the formal announcement of the betrothal, giving the friends of the lovely girl no opportunity to do for her the many pretty things which they were eager to plan. Orders which are sending the bridegroom to the American Lake has hastened the arrangements.

The wedding will have as its setting the beautiful summer place of the Oliver family in Los Altos, with more than half a hundred intimate friends going down for the intimate ceremony. The service will be read in the drawing room with the breakfast table which will be served. Miss Helen Oliver will be her sister's only attendant.

The bride is a girl of striking type who since her debut has been unusually popular with the smart set on both sides of the bay. She is daughter of Mr. and Mrs. Bartley Oliver. Her sisters are Mrs. Leo Merie, Mrs. Paul Fay, Miss Nora Oliver, Miss Helen Oliver and Miss Adelaide Oliver.

Freeman was a member of the first reserve officers' training camp at the Presidio, where he won his commission. His family home is in Auburn. Freeman took his degree from the University of California. He was identified with the Sigma Alpha Epsilon fraternity.

He and his bride will take apartments in Tacoma awaiting his further orders.

Today gives still another simple wedding to the long list of those which have been hastened by the war and orders which are sending the men to the training camps of the front. Miss Delphine Ferrier becomes the bride of Victor Hugo Doyle. The ceremony has been hastily arranged without the formality of a betrothal announcement.

Major David P. Barrows, U. S. A., has been ordered to Santa Ana, where his wife will accompany him, awaiting further assignments from Washington. Major Barrows before he took up his work with the reserve officers' training camp at the Presidio was a dean in the University of California and one of the best known educators on the coast. He has had wonderful experiences as commissioner of education in the Philippines and in several other notable appointments.

Over in Mill Valley there are assembling this evening several scores of the younger set from both sides of the bay who are accepting the invitation of Dr. William Boerke and Mrs. Ferrier at a house dance. It is the friends of their sons, Arthur Boerke and Charles Boerke, who will make up the guest list. Although during the past few seasons the Boerkes have resided across the bay, the sons and daughters of the household are intimately identified with the younger set of Berkeley. The host and hostess arranged to give the dance at the beautiful Marin county estate of Mr. and Mrs. Halston White, near Boerke.

Mrs. Carl Brockhagen is opening her attractive home in View street on Tuesday for a card party and tea at which the members of the Madams' Club, Hemphill Circle, Helian Relief, will entertain their friends. The af-

MISS FRANCES GARRETT, who will be a bride of Donald Pearson, next month.

ments He and his wife have been occupying the charming place of Mr. and Mrs. L. S. Church in Berkeley, but when he went south they gave up the handsome home. One of the exclusive fraternities took the lease from them.

The Church family decided to come back to their former home in Oakland that they might be nearer Mr. and Mrs. George Porter, formerly Miss Esther Church. So the larger residence in the college town was rented. Mr. and Mrs. Church have been spending the season at Casa del Rey, returning but a day or two to town. Mr. and Mrs. Porter have also opened their Oakland home after a fortnight's sojourn at Capitola.

The smart set is welcoming to town Mrs. Lillian Brown Everts and her sister, Miss Florine Brown, who have opened their Lakeside home for the season. They spent the entire summer at Shasta Springs, where a large number of the local smart set elected to pass the year's vacation period.

Feminine bohemia is to have its own high jinks tomorrow. At the lovely place of Mrs. Ernest Dwight Chapman, sister of George L. Green, and Frank M. Greenwood, in Ross, the annual ceremony will take place.

The wives and sweethearts, sisters and daughters, of the men of the Bohemian Club have ready a program of stunts as truly interesting and clever as the grove play which will be produced in the beautiful grove of redwoods which edges the Chapman property. Only a favored few will be added to the notable list of guests who will witness the original play, with its beautiful details and a charming music. The details are as follows: A supper will round out the hours of merriment.

Mrs. A. A. Pennoyer was a hostess of the week, presiding at one of the last of a series of party affairs since her serious illness in the earlier year. The informal tea brought together an interesting coterie of smart matrons who were asked to meet Mrs. William B. Storey. Mrs. Storey is being welcomed to California from her handsome home in Chicago. She is visiting for a little time as the house guest of Mr. and Mrs. Louis Findlay Montague. The calendar of the coming week is filled with some brilliant functions which are being arranged in compliment to her.

Over in Mill Valley there are assembling this evening several scores of the younger set from both sides of the bay who are accepting the invitation of Dr. William Boerke and Mrs. Ferrier at a house dance. It is the friends of their sons, Arthur Boerke and Charles Boerke, who will make up the guest list. Lunch  
Cran Meat Sandwiches Sliced Peaches  
Sponge Cake Ripe Olives Iced Tea  
Dinner  
Cantaloupe Puffed Rice Cakes  
Creamed Potatoes Buttered String Beans  
Butter Wheat Bread Apple Sauce

**CANNING AND PRESERVING.**  
Peach Butter (with cider).—To three pints peeled peaches put one pint cider and three cups brown sugar. Boil for one hour. Cook two hours, remove from stove, put through sieve and cook one hour longer, and one cup sugar ginger (ground). Stir all the time to prevent burning. Can as usual.

To Can Peaches for Pies.—To fifteen pounds peeled peaches add one pound pure cane sugar, boil half hour. Add one and one-half pints pure cider vinegar and boil fifteen minutes. Put in jars and seal. Little Cucumber Pickles.—These are always crisp and spicy and not too acid. Wash and wipe them, put in a crock and cover with a brine strong enough to float up an egg. Leave over night. Next morning wipe each one, place in glass jars, measure in one jar how much water it will hold, and pour the water and take enough for all, put this in a porcelain kettle and add one slice of onion, a dozen whole cloves, a cup of vinegar and two blades of mace. Let come to point where it steams but does not boil. Boil for one hour, then pour over. After three weeks they will be ready for use.

**THE TABLE.**  
Salt Pork Pie.—Put a dish part full with potatoes cut in two; one-half pound salt pork mixed with potatoes, one good cup onion, salt and pepper to taste, two cups water; biscuit crust to cover. Make hole in center for steam escape. Bake one hour in slow oven.

Pear Dessert.—Select nice large Bartlett pears, wash, peel and cut in half right through the stems. Put one cup water, one-half cup maple sugar (shaved), one-fourth cup white syrup into a saucepan, bring to a boil, add pears and cook until tender. When cooked, drain pears and place on slices of toast buttered and browned. Sprinkle with each of the pear syrup and sprinkle some grated maple sugar and serve. If you wish to make more elegant, use a dash of lemon juice and a spoonful of flavored and sweetened whipped cream.

Sausage Cakes.—One-half pound sausage, one-half cup bread crumbs, one-half cup milk, one egg, salt and pepper to taste. Mix all together with a little milk and make into cakes.

Raisin Rolls.—To make the rolls, use one pint of the sponge you have ready for bread on baking day. Add one cup of raisins, one cup of milk and water (milk to be scalded and cooled), one-half cup sugar, one tablespoon each of butter and lard, and a small spoon of salt. Mix well, add one cup of flour to make a sponge as thick as can be stirred with spoon. Knead into a soft dough, roll into a long roll, working three or four raisins (seeded) into each roll. Moisten with melted butter and bake in a hot oven. With a little milk and make into cakes.

**RAISIN COUGH MEDICINE.**  
Take three tablespoons whole flaxseed and one pint seedless raisins. Chop raisins and put them into the flaxseed. Add three pints water and cook down to quart. Squeeze juice of a large lemon into same and sweeten to taste. This is a good cough medicine.

## Eat What You Can; Can What You Can't Eat

Many of the methods of canning and drying fruits and vegetables which are standard in other parts of the country are not appropriate in California. To find out just what methods are most successful for California conditions, THE TRIBUNE asked the University of California College of Agriculture for a series of brief articles on the subject. Here is the fourth of them, written by W. V. Cruess, assistant professor of zymology in the university:

By W. V. Cruess, Assistant Professor of Zymology in the University of California.

Certain fruits and vegetables preserved in a palatable condition by the addition of salt. String beans, cabbage, cauliflower, asparagus and artichokes are among the most popular.

Following way, as recommended by the University of California College of Agriculture: String Beans.—String beans and break into suitable lengths for cooking. Weigh the beans accurately and for every three pounds measure out one pound of salt. Mix the beans and salt in a metal container. Place a wooden weight or a stone or brick on top of the salted vegetables and set away in a cool place. The salt and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. If the vegetables show signs of fermentation at any time, more of the salt should be added to the solution and the weight will force out the juice from the beans. The juice will combine with the salt to give a heavy brine. This brine is the key to the success of the process. ## THE JESTER

Even With the Barber.

"Don't you care for any postcards?" asked the postal clerk as he handed the man the stamp he had posted.

"No."

"No, not today," said the man.

"Or some stamped envelopes? I have some new ones."

"No, thank you."

"Would you like a money order?"

"No."

"Or perhaps you would like to open a postal savings account?"

But the man had fled.

"Who was that fellow, and why you ask him all those questions?" as a fellow clerk.

"That," said the other clerk, "is a barber. For years when he has shaved me he has bothered me with recommendations of ointments, shampoos, hair cuts and hair tonics. I can even vouch him now."—New York Times.

Muffled Firing.

"What is silent influence?"

**A MOUNTAIN ROAD.**

From out the valley's heart straight  
to the heart  
Of dawn it runs with winding fleet  
and far;  
At sunset time it links the evening  
star  
to earth, and they who o'er its miles  
depart  
are friends with winds that on dim  
journeys start  
Across the continents. There visions  
are  
For weary eyes and healing for  
each scar,  
That sorrow makes, and balm for  
failure's smart;  
Our scene on scene unfolds with  
every mile  
And humbles all deemed great in  
valley ways;  
And in perspective true that eyes  
can see  
Change and changeless things; as  
mountain aisle  
An aisle is passed, the rising road  
portrays  
The way to God where climbs hu-  
manity!

**WHAT THE FOOD BILL MEANS.**

Food Commissioner Hoover states the case clearly and concisely when he says that "the food administration is called into being to stabilize and not to disturb conditions." Therefore, that "it will defend legitimate enterprises against illegitimate competition," and the law will be justified on that score, if on no other, the further endeavor of Commissioner Hoover will be to correct "the abnormalities and abuses that have entered into trade by reason of the world disturbance and to restore business as far as may be to a reasonable basis." And it was against giving the government power to bring about these beneficent results that three delegates of the publicists who have gained the classification of the "Potsdammers of the Senate," exerted their influence and applied their votes—seven Potsdammers who may reasonably be included in the catalogue of friends of Germany.—Charlotte Observer.

### MEAT PRICES.

The next move of the food administration will be to fix the price of meat, according to the announcement from Washington. This will be the most difficult task the board has so far undertaken. A loud protest will be heard from the meat "profiteers." Like the coal producers, there are many men engaged in the meat business whose creed is to "get all they can" out of the consumers. And some of them do not boast any cleaner conscience than the coal operators. Furthermore, their business will, from the nature of it, be harder to control than will be the coal and fuel business. In the latter the process from mine to furnace is easily traced and the government can watch it all the way. Meat production and trade is more difficult to control.

Apropos of the insertion in the Congressional Record of Mr. William Denman's complaint against his dismissal from office by President Wilson, and the San Francisco politician's intention to write a book on the shipping board controversy, why is a post mortem necessary when the process by which Mr. Denman became a dead one is fully known?

## PIRT OF THE STATE PRESS

*By the Editor*

Hotels and restaurants in many places are going to urge their patrons to order beef or beef dishes on Tuesday. If the first-class hotels can make this custom fashionable, it may be easily extended to ordinary restaurants and to private families. Then we may have a beefless Tuesday and a meatless Friday almost universally.—Fresno Republican.

Are the other proposals of Senator Weeks to be judged by the feasibility of his proposed tax on dogs? Weeks would levy a national war tax on dogs of a dollar each. This might not be a blow at American liberties, but would be one of several trifling and needless ways of making the war system odious. If all the proposals of Congress are to have it at least as good as the others, we should be thankful for that Weeks is not part of the administration group in a Senate.—Fresno Republican.

And in perspective true that eyes  
can see  
change and changeless things; as  
mountain aisle  
an aisle is passed, the rising road  
portrays  
the way to God where climbs hu-  
manity!

But as THE TRIBUNE urged a few days ago, the food administration will half perform its task if it will do these things: Stop meat-buying for speculative purposes and market gambling, fix a maximum price which will leave a normally fair profit for the producer, the wholesaler and the retail dealer, and prevent hoarding all along the line. Buying for the United States government and our allies at or below this maximum price will set the price to the domestic consumer.

By this method prices will be restored to an

Driving the Germans out of the Lens coal mines and government regulation of the price of coal at the point of production may be facts, but that does not mean that the shippers and retailers of coal will not attempt to extort the usual high prices from Oakland consumers.

Modesto has voted dry again, and is head of Stockton. Modesto has always been a progressive town and in every respects a real model for the state. This time Modesto returned to the dry list by a large majority at a special election. This leaves Newman as the only wet town in the county. At the old, decadent town of Tehama is the horrible example in heretofore dry Tehama county, and we presume Stanislaus county has not yet taken past the "horrible example" stage. We confess to having a number of such examples yet in this county.—Stockton Record.

## WAR'S RESULT TO BE TOPIC AT SESSION

That the present order of things is coming to an end with the termination of the world-war is the belief of Judge J. F. Rutherford, who arrived in Oakland last night to attend the convention of the International Bible Students' Association, of which he is president.

Judge Rutherford stated this morning that something better is coming after the war, and what that something is he will explain at his public lecture on "A New World at the End of the World?" to be given at the municipal auditorium tomorrow afternoon. This lecture has aroused a great deal of interest wherever it has been given, and it is expected that several thousand persons will be in attendance.

The present convention is one of a series which started in Boston August 1, and which has moved westward, stopping at Aurora, Illinois, and Tacoma, Washington. Next week the convention and delegates will be in Los Angeles, terminating the present trip. All the delegates travel at their own expense, special trains being provided for the purpose. Several hundreds have attended all the conventions held this year, which are held particularly for the intensive study of the Scriptures.

**SUCCEEDS RUSSELL.**  
Judge Rutherford succeeded Pastor Russell to the presidency of the association, after the founder's death last winter. The judge has been intimately connected with the work for the last ten years, having devoted both his time and his money to the propagation of the association's work. No salaries are paid to any members of the association, and no collections are taken up. The work is conducted solely by voluntary contribution.

According to Judge Rutherford, the circulation of the association's publications is greater than that of any other books with the exception of the Bible. Last year more than 50,000 copies of one magazine were distributed free.

This afternoon Judge Rutherford addressed the convention on the subject, "The Harvest Truly is Plentiful." The last of four parts of the mammoth photo-drama, "Creation," will be given in the auditorium this evening.

**IMMERSION PLANNED.**  
Tomorrow morning at 8 o'clock the baptismal service followed by water immersion will be held at Piedmont Baths. The convention will come to a close at 7 p. m. with the love feast, and the delegates will prepare to leave for Los Angeles.

Judge Rutherford said the Bible Students' Convention was different from many other conventions of like nature in that it took no money out of the town. No collections of any kind have been taken up during the stay of the convention here.

## SOUVENIR OF ANCIENT OAK FOR HEESEMAN

Charles J. Heeseman, who retired as a member of the board of park directors July 1, is the proud possessor of the first relic to be shaped from the old oak tree that stood in the city hall plaza until the first of this year, when it came to a natural death and was removed to make way for young "Quercus."

A silver-mounted gavel, suitably engraved, was presented to Heeseman by members of the park board at a banquet held in his honor last night at Hotel Oakland. Those present were President Walter Cole, Dr. S. H. Buteau and Dr. L. F. Herriek, directors of the park board, and Lee S. Kerfoot, superintendent of the playgrounds.

## REPORT AT CAMP

SAN FRANCISCO, Aug. 25.—Scores of men reporting for training today at the second reserve officers' training camp which opens at the Presidio Monday found the routine of registering working with clock-like precision. Profiting by the experience of the first camp, army officers in charge are fully prepared to handle the 1600 men who will train at the second camp. Camp dates will report today tomorrow and Monday, and it is understood a few have been granted permission to report as late as the first week in September.

## REED CAMP HEAD

WASHINGTON, D. C., Aug. 25.—Major Elvin C. Reed was today designated commander of the second of fliers' training camp at Fort Benjamin Harrison, Indianapolis, Ind. He was a senior instructor camp. Major Reed was chosen after General Glenn had recommended Colonel Ginnillat, because the latter had already been assigned to a post in the national army.

## TO OPEN SESSION.

The second annual assembly of the California College of Divine Science will open for a three-day session beginning tomorrow. Three meetings each day will be held in the headquarters at 727 Fourteenth street with the teachers and graduates giving the addresses.

OLD FORTY-SEVENTH STREET  
THE WOODS EYE

## Woman Battles for Existence on 10 Cents a Day

While the high cost of living has been causing consternation among housewives, the discovery has been made that in a squalid basement abode in the midst of more affluent surroundings, Mrs. Elizabeth Clark, 67 years old, has been endeavoring to eke out existence on ten cents a day. Neighbors who became acquainted with the situation and notified the police of the Northern station.

Patrolman William Halde-man, who was assigned to the investigation, went to the aged woman's address, 960 Fifty-third street. His report, which will be referred to the Associated Charities, recites that his "survey of the conditions of the place she calls home" brought to light that the aged woman is dependent upon charity and that she "drags out a weary existence amidst the squalor of the basement." He found, he says in an interview, that Mrs. Clark is allowed \$6 a month by the charitable organization, with wood and coal. Of the allowance \$3 goes for rent, leaving \$3 for sustenance.

## LEADERS MARKED BY VIGILANTES

BUTTE, Mont., Aug. 25.—Warnings similar to the one found on the body of Frank Little, murdered I. W. W. leader, have been sent to R. F. Dunne, leader in the Metal Trades Council strike movement, and Shannon and Tom Campbell, prominent in the Metal Mine Workers' Union.

The labor leaders today appealed to the police for protection. They claimed that the men at Finlander Hall, union headquarters, were written in the same hand as the warning found on Little's body. They carry the initials D. C. S., standing, it is believed, for Dunne, Campbell and Shannon.

The warnings bear the vigilante numerals, 3-7-71, which were also found on Little's body. Posted on them is a large hand, with a finger pointing at the word "YOU." The hand was cut from Liberty bond advertising posters.

Dunne and several other strike leaders have been made deputy sheriffs and given permission to carry a gun. They have a bodyguard all the time and the places where they sleep are kept a secret. The three men said today they did not fear the warnings and would not lessen their activities.

## ENEMY ALIENS CAUSE STRIKE

NEW YORK, Aug. 25.—Employment of enemy aliens on government work in shipyards at the port of New York is one of the chief grievances of the thousands of striking mechanics have against their employers, it was alleged by J. J. McIntee, business agent of the International Association of Machinists. He declared the strike would be long unless the government intervened.

"All that we ask," McIntee said, "is that the government remain neutral in regard to its labor contracts. We do not want to have employed on government jobs men whose loyalty and fealty to the United States is a matter of question."

"If Secretary Daniels wishes to be fair in this matter he will, in the first place, insure that no enemy aliens are employed on the so-called repairs of troopships which the government intends to place in operation in the near future."

"We would like to settle this strike tomorrow, but we cannot do so, so long as the employers continue to be obstinate."

## S. P. IS MENACED

GRANTS PASS, Ore., Aug. 25.—Two attempts were made last night, it was learned here, to damage the Southern Pacific tunnel at Wolf Creek, nineteen miles from here. The first attempt was frustrated by guardsmen who fired forty-five shots at a gang of men prowling in the brush near the tunnel. The men returned the fire, but no soldiers were hit. After the fight, which lasted fifteen minutes, the prowlers disappeared in the woods. An hour later four men appeared in an automobile near the tunnel, but when challenged by soldier guards put off at full speed.

## SLAYS FAMILY

IDABEL, Okla., Aug. 25.—The bodies of Ward Briton, a farmer of Ringsold, thirty-five miles northwest of here; his wife, infant son and cousin, George Hughes, were found in the Briton home by neighbors. Idabel officers who investigated reported that apparently Briton had killed himself after shooting the other three. It is believed he was temporarily insane.

## RANCHER IS HURT

ONTARIO, Aug. 25.—"Devil's dance floor"—so named because of frequent fatal accidents due to the slippery surface of the highway—claimed another victim today in the person of A. Moore, well-to-do rancher, who was fatally hurt when a car skidded into his ranch wagon. Moore was knocked from his seat and the automobile passed over his body.

## PALO ALTO CAMP ORDER MUST STAND

The War Department will not modify its decision to transfer the Forty-first division national guard troops from Palo Alto to Charlotte, N. C. Representative Kahn of California sent a telegram to Major James Rolph of San Francisco today to that effect after a conference with Major General Scott, chief of staff and other army officials.

However, if a water-borne sewer system can be built at Camp Fremont for \$80,000, as California business men say it can be, the army department will not abandon the \$400,000 camp, sending it to at some future date, probably by winter time, another division of troops. The Forty-first division, originally destined to train at Fremont, has been ordered to a cantonment at Charlotte, N. C. Secretary Baker refusing to countermand his order, made immediately upon receipt of injunction threats from officials of the California State Board of Health.

Officers at Camp Fremont look for a move about September 1. Records sent down from the Pacific and to be installed in Major-General Liggett's headquarters, are being packed up again and will be shipped back to San Francisco along with army clerks and an office force. Officers of the medical and hospital corps say they have received orders which indicate an early move from Fremont for some time to come. Men sent here to man the big base hospital, capable of holding 1500 patients, are getting ready to move, again.

## DELAY WOULD BE FATAL TO WAR PLANS

John S. Dunnigan, clerk to the board of supervisors, San Francisco, is on his way to Washington to tell the army men that a modern water-borne sewer system may be built for the additional expenditure of \$18,000, latrine system over which western business men, health officials and Washington army officials battled.

Late reports from Washington indicate that Camp Fremont will be in use for troops by the time that cold weather sets in. These troops will, with all probability, be transferred from American Lake, Wash., number one camp of the division stationed there.

Representative Kahn has sent to Major Rolph of San Francisco, one of the leaders in the telegram battle saying that the War Department would regard it fatal to its plans to have four week's delay entailed in putting a proper sewerage system into Palo Alto camp. It is regarded here that this may indicate the government's wish to have Fremont ready immediately for service and cold weather may follow. Western estimates place the construction time at two weeks.

That the recreation commission at Camp Fremont will not abandon plans is the statement issued today by James R. Williams, war representative of training camp activities. Williams believes that a large body of soldiers will be at the local cantonment within a short time and is confident that plans for a large recreation center at the San Francisco creek park, near the camp, Williams is looking for a permanent office headquarters.

## PROMISES MADE TO BOARD; NOTHING DONE

Representative Kahn, Senator Phelan and Acting Secretary of Interior Alexander Vogelsang, a former San Franciscan, join in bawling out the War Department for the danger to Camp Fremont. Dr. George Elbright, head of the State Board of Health, and who has been accused of bringing about the present trouble through his orders against the latrine Governor Stephens explaining his side of the controversy.

"The real trouble came further back," Dunnigan, clerk of the Board of Supervisors of San Francisco, had in the way of sewerage systems and water supply systems.

"Captain Fleischhauer informs me that in spite of everything he could do nothing materialized from Dunnigan's promises," Dunnigan represents a committee of business men of San Francisco. Two weeks ago I called his attention to the fact that it was urgently necessary that his committee and San Francisco should do something to get the matter straightened out or the Board of Health would have to enforce the military authorities if it came to a show down.

"I was informed by him that he thought military authorities could take care of themselves and he continued to do nothing but promise anything he saw fit to Captain Fleischhauer. I was finally informed Friday by Colonel Little that the order of August 3 provided for complete sewerage system, immediately interviewed Captain Fleischhauer, who informed me that orders of August 3 received by him provided for the construction of a sewerage system large enough to care of everything, but that only the connection should be made for water for baths and kitchens and specifically stated that pit latrines should be constructed. I then sent a telegram to Colonel I. W. Little reading as follows:

"Instructions August 3 expressly provide for use of latrines at Camp Fremont. Unless orders are received by officer in charge of construction

## Bootlegging Into Oregon by Pullman Employee Charged

Pullman Car Company officials here are investigating charges, made in Oregon, that their train employees have been doing a thriving bootlegging business for some time. According to news from Portland, D. E. Stevens, Pullman car conductor under arrest in the northern city for alleged bootlegging, is said to have confessed. He is alleged to have made the claim that almost every employee of the corporation, working on the trains between Oakland Pier and Portland, is guilty of bootlegging.

According to word from the north, state, city and county officials are preparing to war on what is termed a serious situation. Other arrests, in addition to that of Stevens, lend credibility to the claim made by northern officials that the traffic is widespread and its organization extensive.

## CLUB TO HOLD FLAG-RAISING

Patriotic exercises will accompany a flag raising ceremony tomorrow afternoon, when members of the Steinway Terrace and Boulevard Park Improvement Club dedicate a new flagpole at Forty-first avenue and Merz street. Prominent men of Oakland and nearby cities have been invited to witness the ceremony.

The program includes opening remarks by W. E. Rowlands, president of the club, who introduces Edwin W. Woodward as chairman of the day. Patriotic pieces by the First High School band will precede a poem written and read by Fred Emerson Brooks. The Lawrence Brothers Quartet follows, after which the raising of the flag will occur. Mrs. Lucile Hartsock and Miss Gertrude Martin will raise the flag, while a band renders the national anthem.

Professor H. D. Bracefield, principal of Fremont High School will give a patriotic address, following which Miss Barbara Miller is scheduled to render a vocal solo. Emile Cordinal will give a tenor solo. The audience will cheer for the raising of a rendition of "America."

Officers of the club are as follows: President, W. E. Rowlands; vice-president, Dr. Guy Brown; secretary, J. Ernest Phillips; and treasurer, Mrs. Lucile Hartsock. The committee in charge of the exercises includes Chairman Edward W. Woodward, L. Ernest Phillips, E. C. Sydes, secretary, Mrs. Effie Martin and Mrs. Alice B. Cox.

## OUTING PLANNED

Two hundred Native Daughters of the Golden West from Bahia Vista parlor, Oakland, will hold a family outing at Pinehurst tomorrow, for which all arrangements have been completed by a committee composed of Miss Louise McDougall, chairwoman; Miss Eva Pine and Miss Evelyn Johnson. Dancing, prize waiters and other attractions have been arranged for.

## PLAN MEMORIAL

Memorial service will be held at the Salvation Army Hall, 533 Ninth street, Oakland, Sunday, August 26, at 2 p. m. for Major Tanner, the late matron of the Army Bulah Home for Girls in Oakland, who died Wednesday, August 22d. The major was a successful officer of the army for over thirty years. She had been stationed at the Oakland home for the past nine years.

at Camp Fremont within twenty-four hours to dispose of use of latrines and construct acceptable sewer I will order injunction proceedings.

**BELIEVED COST WOULD REACH \$500,000.**

That Secretary Baker believed the new sewer system would cost \$500,000 is indicated in a statement issued by Senator Phelan yesterday. Senator Phelan has been working hard for California's retention of the cantonment. The message from the Senator is in part as follows:

"I found Secretary of War Baker very reasonable in his discussion of the affairs of Camp Fremont.

The facts are that the quartermaster general and chief of staff reported to the secretary that the State Board of Health, on August 17, threatened to enjoin the army from the use of Camp Fremont unless a water-borne drainage system was installed, which was estimated to cost \$500,000 and which would take from one to two months to construct. The secretary had no criticism whatever to make of the State Board of Health, but said it would be poor economy to expend that amount in completing Camp Fremont when the department had a vacant camp at Charlotte, N. C. By sending the Forty-first division in California for a longer period than six weeks. So he approved the recommendation of the quartermaster to close the camp just as it was."

## HARBOR WORK FUNDS SHORT, KEITH HOLDS

Despite the probable addition of \$45,000 to the harbor funds by the sale of the cash bond in the appeal of the Merritt waterfront suits, the city will fall short \$62,567 in the amount necessary to fulfill its contract obligations on harbor improvements this year, according to W. W. Keith, former harbor manager, who resigned last July.

Including the budget allowance of \$4,962 with the probable net cash receipts over the waterfront, the total amount available for necessary work is estimated at \$38,295, said by Keith to be wholly inadequate for what will be demanded.

It was this construction of the situation which caused Commissioner Morse to oppose the budget in its adoption by the council. He protested that he was not allowed a sufficient sum to carry on the work of the department.

## PART OF BONDS.

The \$45,000 put up as bond money in the suits was a remnant of bond money voted by the people years ago to start harbor development and it can only be used for restricted purposes. The city is under obligation to do dredging work in the Key Route basin adjacent to the Albers plant, and to maintain certain property. New sheds and repairs are considered necessary at this time in addition to the acquisition of dredging pipe.

The budget allowance this year was based upon an estimated revenue of \$96,000 from the waterfront leases and tolls and wharfage. Keith points out that the figures are misleading for the reason that approximately only one-third of that amount will actually be available. He cites that the other two-thirds must be refunded to companies operating over the leases to reimburse them for improvements made by them and which are chargeable to the city under their contracts.

As an example of the situation confronting the city, Keith recites the following:

"For the fiscal year ending June 30, 1917, the total earnings from docks, tolls, wharfage and rentals amounted to \$104,976.89. Of this amount \$40,076.95 was paid back to the Sunset Lumber Company, Howard Company and Albers Milling Company on account of construction in accordance with the terms of their leases. \$25,219.48 represents charges accrued against numerous shipping concerns for use of shipping facilities of the Southern Pacific Company, the

of the selective draft law.

## A Lost Opportunity Returns

The chance to attend a law school has been denied many who would have liked to do so. We fill that desire by maintaining two evening classes a week. Phone Oak 1181. Oak Institute of Law, Syndicate Bldg.—Advertisement.

## New Eruption of Lassen Is a Violent Shock

REDDING, Aug. 25.—A violent eruption of Mount Lassen, California's volcano, which began at 5 o'clock yesterday, was reported today by campers arriving here. The eruption was not visible here because of the pall of forest fire smoke hanging over this vicinity.

The campers, who were eight miles from the crater, heard a rumble and roar and the earth quivered. A column of smoke shot far above the atmospheric cloud which hung over the crater.

This is the 144th eruption of the volcano during the last three years, according to count kept by observers here.

Western Pacific and the E. K. Wood Lumber Company leaving a balance of \$39,681.45 as the actual cash receipts or about 26 percent of the total accruals.

## REVENUE FIGURES.

"Providing the tonnage passing through the port of Oakland keeps pace with last year, which is doubtful due to abnormal conditions brought about by the war, the total port revenue would again reach \$100,000 in round figures. Apply a more liberal percentage, say 30 percent, or even one-third of the total as actual cash receipts, \$38,333 coupled with the budget allowance of \$4,962, would make the total allowance for harbor improvement for the fiscal year, \$38,295 or \$62,567 short of enough to cover the budget provisions.

"Last year there was apportioned out of the tax levy \$73,250.90 and further effort will be made to derived from port revenue or a total of \$103,250.90."

## TREASON CHARGED

LEWISTON, Ida., Aug. 25.—Victor J. McCone, Socialist party secretary of Oregon, is under arrest here today charged with treason. McCone was taken into custody by Captain W. F. Morse, commanding federal troops here, after it had been charged he came here from Portland to cause discord in labor circles and to work against the selective draft law.

Probable transfer of officers and patrolmen may include Captain C. Bock who is now at the Central station, and changes in the inspection department. Present active inspectors, four in number, Frank McGee, John Gannaw, William Smith and Frank Roswell may be put back on the street and their places in the staff per office filled with other patrolmen if this is considered necessary.

## NEW POLICE HEAD WILL 'HARMONIZE'

Chief of Police J. H. Nedderman, who will assume the duties of his new position on September 1, plans to put forth his best efforts to harmonize the workings of the department which has been in a state of internal upheaval for many months during the bickering of the council over the question of who should be chief. With the unanimous endorsement of Sergeant Nedderman to head the department, the council, it appears, is ready to work together to back up the new chief in any policies that may be determined upon.

Whether or not there will be any radical changes in the hitherto policy of the administration as carried out by retiring chief Walter J. Peterson, has not been announced. For his part Chief Nedderman has expressed a desire to bring about such harmonious conditions as will reflect the highest efficiency and with credit to the city.

"I am ready and willing to assume the responsibilities entrusted to me by the council as head of the police department," said Chief Nedderman. "My appointment came unexpectedly to me although I had consented to become a candidate for appointment following the resignation of Chief Peterson. I did not particularly want the job but when it was offered I accepted."

"As to the future policy of the department I am not prepared at this time to make any statement. This will be determined later. However, the first effort will be to harmonizing the department to the city that we all can work for the best interests of Oakland."

Between now and the first of the month Chief-elect Nedderman will put in his time at the city hall getting in touch with the inner affairs of the office. He will be under the supervision of Senior Captain J. F. Lynch, whom he has worked for many years and, until recently, at the northern station. Captain Lynch has been in chief since August 1 when Captain Peterson went to Arcadia in command of Battery E.

Probable transfer of officers and patrolmen may include Captain C. Bock who is now at the Central station, and changes in the inspection department. Present active inspectors, four in number, Frank McGee, John Gannaw, William Smith and Frank Roswell may be put back on the street and their places in the staff per office filled with other patrolmen if this is considered necessary.
